Seven hills, Etawah
10th

2018-2019
Marks: 85.0%

TECHNICAL SKILLS

Programming Languages: C/C++, JavaScript, Python

Web Development: HTML, CSS, Tailwind CSS, JavaScript, React.js

Skills : Data Structure and Algorithm, Git/GitHub

Databases: SQL, Oracle

Coursework: Database Management System, Object Oriented programming, Software Engineering

PROJECTS

Weather App.

Weather App created using HTML, CSS, JavaScript , and API- The user can enter the city name. It shows the current temperature, humidity, and wind speed of the city.

10xRadar Educational Platform.

10xRadar Educational Platform offers hands-on experience in software development, focusing on real-world projects. I gained expertise in React, Tailwind CSS, and API integration, enhancing my development skills.

Furniro E-Commerce Platform

This is a fully responsive e-commerce website where users can browse and purchase products seamlessly. It features product listings, categories, search functionality, a shopping cart, and a checkout system. I integrated payment gateways, user authentication, and real-time order tracking to enhance the shopping experience.
